Contribution of Each Member

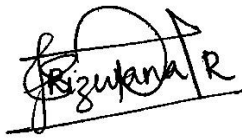

Member's Name	Sections Written	Tasks Undertaken
Affan Mohammed N Marikar	Data Preprocessing, Data Cleaning Pipeline, Exploratory Data Analysis, Final Compilation	Sourced the dataset from the portal and led data preprocessing and implementation of the data cleaning pipeline; handled dataset integration and transformation; contributed to exploratory data analysis; performed formatting, editing, and final compilation of the manuscript
Rizwana Nazar R	Feature Engineering, Exploratory Data Analysis, Data Visualization, K-Means Clustering	Performed feature engineering; led exploratory data analysis and data visualization; implemented K-Means clustering and evaluation; contributed to interpretation of results and insights
Gayathiri N	Visualization Validation, Methodology Documentation	Assisted in data cleaning verification; validated and executed visualizations included in the manuscript; referred to research papers as references for the project work; contributed to documentation of methodology and logical flow of the report
Gopika Archa P J	Introduction, Related Work, Dataset Description	Referred to research papers to study existing work on the dataset; structured and authored major sections of the paper; reimplemented and validated the code in a separate system environment

Declaration

We hereby declare that *Rizwana Nazar R* and *Affan Mohammed N Marikar* carried out the primary implementation and analytical components of this work. *Gayathiri N* and *Gopika Archa P J* contributed to documentation, independent code reproduction, validation, and final manuscript preparation. All authors have reviewed and approved the final version of the paper.
